Createspace Independent Publishing Platform, United States, 2015. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.After changing countless wet and dirty diapers, parents of toddlers everywhere are more than ready to potty train their child and move past the diaper stage. Potty training comes with its own headaches and frustrations, however, and you may find yourself wishing for those peaceful days of diaper-dom. Stay patient and persevere, and you will get through this. Despite what you will hear from many sources through the potty training stage, there is no one perfect potty training method. Each child is different and so each child needs his or her own approach to conquering this milestone. With that being said, here are a few things that just don't work: 1. Copying Someone Else's Style Somewhere out there is a super child who was successfully potty trained in two days at 11 months. I'm sure you've all heard the stories. Everybody knows somebody whose child did everything faster, better, and younger than anyone else. And that's great for them. Be happy for them and also be a little jealous. But don't try to copy their style. Just because it worked for their child doesn't mean that it will work for yours. Stay consistent with your own strategies and routines. It will work better for you than anyone else's miracle fix. 2. Rushing Your Child It's a pretty accepted scientific fact that children simply don't have the muscles needed to hold their urine until they reach 18 months. Some children don't develop those muscles until 24 months or later. But even at that age, there's no guarantee that your child is ready to tackle...
