BookBaby, United States, 2012. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.Raven is the second book in The Balance series - a collection of paranormal thrillers dealing with the unseen world of balancing powers. Too often life is viewed in terms of good and evil, black or white, and the balance point tipping in either direction is ignored. Why should the afterlife be any different? We are given a choice when we die to move on to the Source, stay on earth and slowly evolve into more of what we were (good people become angels and bad people become demons), or a chosen few can work to keep the Balance between them. The title character Raven is such a warrior who works to maintain that balance. Malign, the demon responsible for most of the world's cataclysmic wars, has come to the United States with an army of vampires or, more specifically, demons she has convinced to act as those fabled creatures of the night to sow discord and social unrest. Raven and the other Balance soldiers must track Malign down and in their spare time try to convince the ancient angel Metatron that he is doing more harm than good with his participation in mortal affairs. Tagging along for the ride are a motorcycle gang of millionaire philanthropists, Raven's fellow Balance warrior Zeus younger angelic brother, and the demon Lucifer with his babysitter Gabriel. The novel is written in two styles. Each chapter begins in a soliloquy from the title character Raven, where she tells pieces of her back-story intertwined with philosophical musings on her family life and dealing with loss, with the following bulk of the chapter told in a third person narrative.
