The Impact of Health Insurance in Low and Middle-income Countries

By Maria-Luisa Escobar, Charles C. Griffin, R. Paul Shaw

Brookings Institution. Paperback. Book Condition: new. BRAND NEW, The Impact of Health Insurance in Low and Middle-income Countries, Maria-Luisa Escobar, Charles C. Griffin, R. Paul Shaw, Over the past twenty years, many low- and middle-income countries have experimented with health insurance options. While their plans have varied widely in scale and ambition, their goals are the same: to make health services more affordable through the use of public subsidies while also moving care providers partially or fully into competitive markets. Colombia embarked in 1993 on a fifteen-year effort to cover its entire population with insurance, in combination with greater freedom to choose among providers. A decade later Mexico followed suit with a program tailored to its federal system. Several African nations have introduced new programs in the past decade, and many are testing options for reform. For the past twenty years, Eastern Europe has been shifting from government-run care to insurance-based competitive systems, and both China and India have experimental programs to expand coverage. These nations are betting that insurance-based health care financing can increase the accessibility of services, increase providers' productivity, and change the population's health care use patterns, mirroring the development of health systems in most OECD countries....
