

## Vegetation of the Eastern End of Oneida Lake

Filesize: 1.33 MB

### ***Reviews***

*This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

Excerpt: . . . New York State Museum Bulletin Entered as second-class matter November 27, 1915, at the Post Office at Albany, New York, under the act of August 24, 1912 Published monthly by The University of the State of New York No. 197 ALBANY, N. Y. May 1, 1917 The University of the State of New York New York State Museum John M. Clarke, Director REPORT OF THE STATE BOTANIST 1916 John M. Clarke Director, Science Department S1r: I beg to communicate herewith my report on the work of the State Botanists office for the fiscal year 1916. Very respectfully Homer D. House State Botanist Scientific investigations. A rather limited amount of time was devoted to the completion of a reconnaissance of the vegetation and its ecological relations of the region about the eastern end of Oneida lake, a region of extensive sandy barrens, swamps and bogs in addition to the broad sandy beach of the lake, the shallow waters of the lake margin and the streams flowing into the lake, the home of numerous water-loving plants. Because of soil conditions and a climate influenced to some extent by the Great Lakes, the region is characterized by a large number of plants common to the northern coastal plain. The results of this investigation appear in another part of the report. Wild Flowers of New York. The season of 1916 was largely spent in continuation of the field work necessary for the completion of the proposed memoir on...
