Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Textbook of Simplified Phonography: For the Use of Schools or Teachers and Specially Adapted to Mail or Self Instruction The development of the system of shorthand which we have endeavored to explain in the following pages, is the outcome of the experience in teaching of the author, who found the systems previously in use, defective in many points, so far as clearness, simplicity, and rapidity of acquisition are concerned. He has, therefore, in the method here presented, avoided in every case the ambiguity and necessity for exceptions, which all the previous systems have shown to a lamentable degree, and leaving the beaten track, followed by all the successors of the pioneer Isaac Pitman, he has pursued a rational, straight-forward course, using but few principles, with no exceptions, giving the rules in the natural order of sequence, and wherever the old systems were vague or defective, he has harmonized the principles or introduced new principles, utilizing the phonographic material in such a way as to combine simplicity, uniformity, facility and beauty of writing, absence of exceptions, and absolute legibility, with a degree of real brevity unequalled and unapproached by any former system.
