

The Compatibility Gene (Hardback)

Filesize: 2.37 MB

Reviews

This ebook is very gripping and fascinating. Sure, it engage in, nevertheless an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Ms. Ora Buckridge)

THE COMPATIBILITY GENE (HARDBACK)

Penguin Books Ltd, United Kingdom, 2013. Hardback. Book Condition: New. 236 x 158 mm. Language: English . Brand New Book. The Compatibility Gene is a scientific adventure story set in a new field of genetic discovery - that of the crucial genes that define our relationships, our health and our individuality. Here, Daniel M Davis, one of the leading scientists in the field, tells us the story of its groundbreaking developments that have the potential to change us all. We each possess a similar set of around 25,000 human genes. Yet a tiny, distinctive cluster of these genes plays a disproportionately large part in how our bodies work. These few genes, argues Daniel M. Davis, hold the key to who we are as individuals and our relationship to the world: how we combat disease, how our brains are wired, how attractive we are, even how likely we are to reproduce. In The Compatibility Gene, one of our foremost immunologists tells the remarkable history of these genes discovery and the unlocking of their secrets. From the British scientific pioneers who, during the Second World War, struggled to understand the mysteries of transplants and grafts, to the Swiss zoologist who devised an entirely new method of assessing potential couples compatibility based on the smell of worn T-shirts, Davis traces what is nothing less than a scientific revolution in our understanding of the human body: a global adventure spanning some sixty years. Davis shows how the compatibility gene is radically transforming our knowledge of the way our bodies work - and is having profound consequences for medical research and ethics. Looking to the future, he considers the startling possibilities of what these wondrous discoveries might mean for you and me. Who am I? What makes me different from everyone else? Daniel Davis recounts...
